About the Workshop

Child-Centered Play Therapy (CCPT) is one of the most effective and frequently used forms of play therapy. With its strong evidence base and wide applicability, it is one of the most developmentally-relevant forms of therapeutic intervention for children. The skills of CCPT are also valuable when using more directive forms of play therapy, and this approach serves as the foundation of Filial Therapy.

Participants in this intensive CCPT training will learn about the rationale, goals, toy selection, specific play session skills and methods, recognition of play themes, interpretation, and special issues involved in CCPT practice.

The training also covers ways to involve parents in the process and how to consult with schools, the foster care system, or others involved with the children. Participants will also learn how to handle a wide range of challenging situations with children during play sessions.

This training represents the extremely practical and time-tested CCPT methods of Dr. Louise Guerney and covered in the book, *Child-Centered Play Therapy* by VanFleet, Sywulak, & Sniscak (2010, Guilford).

This training is appropriate for beginning play therapists as well as those who have attended 1- or 2-day conference presentations, larger workshops, or who have completed the DVD or distance learning workshops on the topic.

Training Methods

The Intensive CCPT Training Program is limited to 6 participants to permit extensive skill practice with individualized coaching & feedback. Ms. Sniscak presents brief lectures, live and videotaped demonstrations, case studies, and supervision/feedback to participants as they practice during role plays. All is done in a playful, positive learning atmosphere.

Participants will develop considerable competence in the conduct of CCPT through this very effective and individualized training approach.

VanFleet Endorsement

I have asked Cindy to offer this training through the Family Enhancement & Play Therapy Center because she is so experienced and versatile with its use and its incorporation into the total treatment plans of children with many different problems. She is a fun and highly capable trainer, and she is one of the very best all-round play therapists I have ever seen. Past participants in her trainings have consistently rated her as "excellent" and "one of the best presenters ever." I highly recommend this training!
